### **Disparity Study Overview**

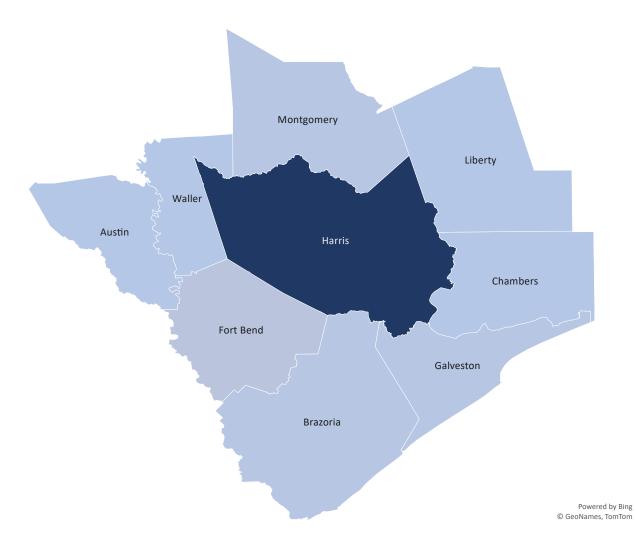

- Disparity studies are used to determine whether there is evidence of discrimination in the market in which a public entity does business that would permit the use of policies to eliminate discrimination and remedy its effects
- The City of Houston's disparity study involved the collection and analysis
  of quantitative and qualitative data to make this determination
- Disparity studies provide actionable results that can be used to <u>narrowly</u> tailor a supplier diversity program

### Findings

- Disparity identified in Houston's utilization of MWBE firms compared to the availability of firms in the City's marketplace.
- Qualitative/Anecdotal accounts of discriminatory behavior/barriers in Houston's marketplace.
- Disparity in self-employment earnings for MWBE firms compared to non-MWBE firms was identified in Houston's private sector marketplace.
